

EXTRAORDINARY VERSATILITY

BOHR

Imagine an intelligent home that interacts with you through gestures and follows your voice commands. A home where appliances talk to each other and club to form an Internet of things(IoT). A home that understands your needs like your mate. Not just a house that you live in, but, A home that you live with everyday.

Because

"Luxury is in each detail"

Hubert De Givenchy

Experience how ground-breaking technology can simplify lives and provide highest luxury standards.

EXTRAORDINARY VERSATILITY | **BOHR**

LIGHTING

The quality of light around us has a profound effect on our well-being. Create an effective illumination with Bohr lighting solutions at touch of a finger or with a single voice command.

Enjoy the perfect ambiance blending with your mood by choosing the color & intensity of light and saving energy at the same time.

Efficient lighting is vital for energy efficient buildings.

SHADING

Integrated with Home Automation System, the shading solution provides more comfort, privacy and energy efficiency.

Enjoy elegant transitions of daylight with automatic yet precise adjustments of window treatments by near-silent control devices.

Bohr offers a wide range of actuators & control devices for all types of applications including horizontal roller blinds, drapery track systems, venetian blinds, roman shades, sky lighting shades, projection screen, etc.

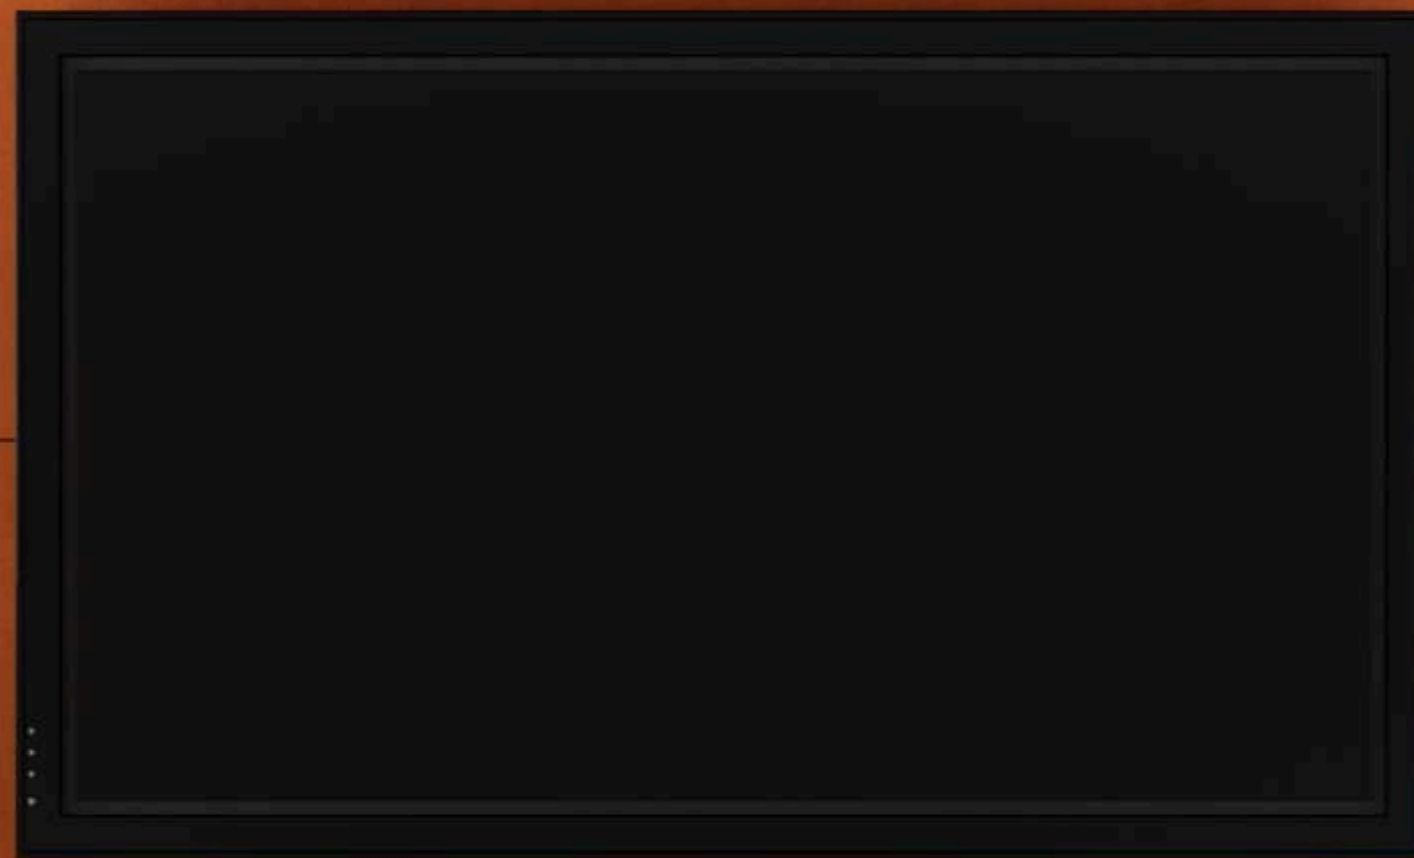

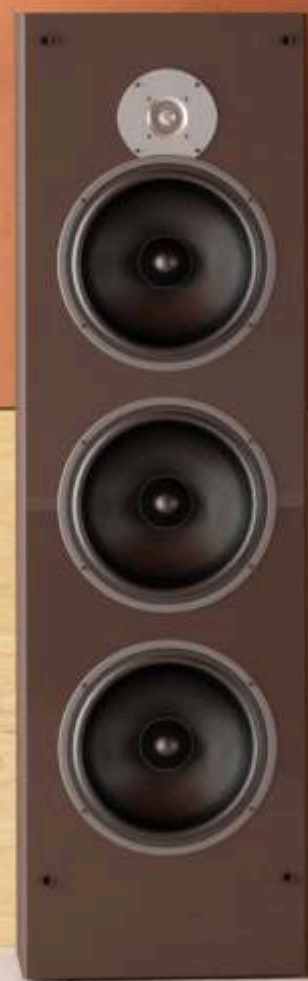

SECURITY SOLUTIONS

Let our security solutions monitor your house or working place, so that you can enjoy that memorable trip with your loved ones.

Your place doesn't have to be a vulnerable fortress in order to be secured. It just needs to be smart to guard itself.

With glass braking sensors, perimeter breach detection devices, intelligent video analysis and remote monitoring through user friendly interface you are never away from your home.

AUDIO VIDEO

Re-discover your taste of music and movies with rich media devices and services.

No matter how and in what form you consume media content, Bohr provides you with a complete portfolio for audio-video equipments to suit your needs and preferences.
